

02/16/18 marked the 50th Anniversary of the 9-1-1 emergency system. In 1968, the number was agreed upon. AT&T chose the number 9-1-1, which was simple, easy to remember, dialed easily, and worked well with the phone systems in place at the time. On 02/16/68, Alabama Speaker of the House Rankin Fite placed the first-ever 9-1-1 call from Haleyville City Hall, to Congressman Tom Bevill, at the city's police station.

Nothing significant to report.

Cal OES INLAND REGION

6 Railcar Derailment, Tehachapi, Kern County, SPILL 18-1090

On 02/17/18 the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR) advising 6 railcars derailed mixed (3 on their side, 3 upright). This occurred at Mile Post 356.1 at the Mojave Subdivision, Tehachapi, Kern County. Railcar numbers #GATX200839, #BNSF782180, #ATSF625387, #BNSF782205, #BNSF780839, #ADMX85217.

- · No hazardous materials released. Some railcars were transporting wine.
- · There were no injuries to crew members.
- · There is currently a mainline closure and it is unknown for how long.
- It is unknown who will conduct clean up at this time.
- There are no reported impacts to waterways.
- The CSWC made all appropriate notifications per Hazardous Materials SOP.

Cal OES SOUTHERN REGION

· Nothing significant to report.

WEATHER OF CONCERN

Weather of Concern

- A storm system will usher in very cold air over Northwest California Sunday into Monday. Numerous showers are anticipated, but overall precipitation isn't expected to be particularly heavy. The main concern will be very low snow levels, which will result in snow accumulations on roadways near 1,000 feet or lower Sunday night into early Monday.
- Freeze Watch now in effect for Monday through Wednesday nights for much of the San Joaquin Valley. Temperatures are expected to drop into the mid 20s to lower 30s each night. Temperatures this cold can negatively impact people, animals, plants and pipes. Please be sure to check on the elderly and make sure your pets and livestock have warm shelter during the overnight hours during this event.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Light NW-NE winds are through early Saturday. A cold front approaching from the north late Saturday afternoon will cause winds and clouds to increase. By late afternoon SE-SW gusts at lower elevations such as the Sacramento Valley will reach 25-30 mph and SW-NW gusts at higher elevations, especially in the north, will reach 40-50 mph.

The front will move slowly through the region from north to south Saturday night and Sunday. Only northern and eastern areas will receive light precipitation. Snow levels will start out near 4000 ft, but drop to about 2000 ft as these conditions continue through Monday. Breezy northerly winds will return Sunday through Wednesday, with gusts in the most wind-prone areas reaching 30-40 mph. Another similar front will approach Thursday and move through Thursday night and Friday. In general, the front Saturday night and Sunday will begin a period of cooler than normal and unsettled weather for the next two weeks or more, with increasing amounts of precipitation during week two.

SOUTHERN CALIFORNIA

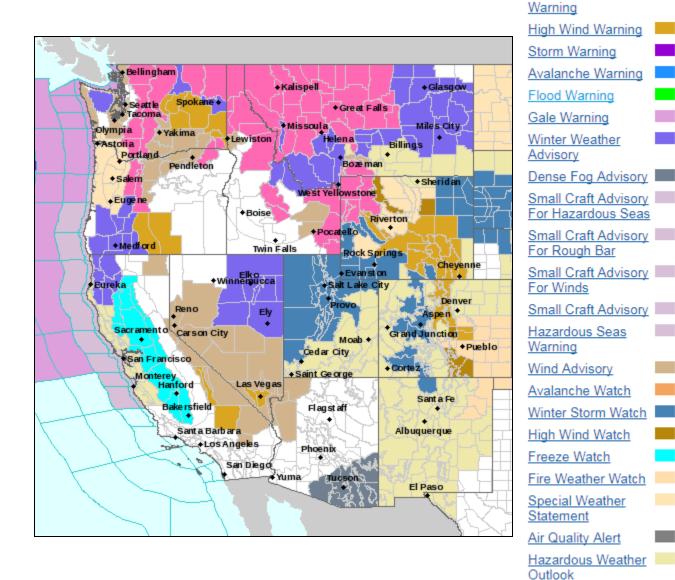

A weak ridge of high pressure over California will cause temperatures to be 5 to 10 degrees above normal through Saturday, with 50s to low 60s across the mountains and upper 60s and 70s in the valleys. Minimum humidity will be mainly in the teens away from the coast through Saturday. Significant cooling and a big increase in humidity will occur Sunday and Monday as a deep trough drops south from Canada. Temperatures will be around 10 degrees below normal on Monday. This trough will bring isolated to scattered showers with light precipitation totals to the region Sunday night through Monday afternoon. Westerly winds of 20 to 40 mph with gusts to 60 mph will surface across the wind prone mountain and desert areas Sunday morning through Monday morning. Slow warming along with lower humidity will occur Tuesday through the end of next week as the trough over the West Coast weakens. However, temperatures will only warm up to near normal by the end of next week. There will be northerly winds of 20 to 40 mph with gusts to 60 mph across much of Santa Barbara County and the Grapevine Monday night.
